Abandonment of National Renewable Energy Laboratory Wells

N. M. Hutchins, Deputy Associate General Manager  
Environmental Restoration Management  
EG&G Rocky Flats, Inc.

Based on the memorandum of agreement and discussions between the Department of Energy, Rocky Flats Office (RFO) and the National Renewable Energy Laboratory (NREL), four NREL wells at the Wind Energy Site are to be abandoned. Please have your Geosciences Division staff abandon wells numbered 45091, 45191, 45291, and WS1 through the Well Abandonment and Replacement Program (WARP). Because of similar well numbers, please note that we are requesting abandonment of Wind Energy Site water well "WS1", not the present landfill well "WS01".

If there are any questions, please call me at extension 5915.

E. A. Howard, Acting Director  
Environmental Protection Division
